# ADVANCED PROJECT MANAGEMENT TOOLS IN EXCEL

## COURSE INFORMATION

Project management is done on a daily basis in a wide range of companies and organisations, but often on expensive software and in a complex manner. This course will upskill you in harnessing the powerful Excel applications in order to improve project management in your organisation. Through this course, you will learn how to build interactive models on Excel, in order to efficiently and effectively manage your projects.

### Course Content

- Capital Budgeting
- Gantt Chart
- Work Breakdown Structure
- Project Execution Plans
- Array Calculations
- Project Budgets and Variances
- Critical Path Analysis
- Progress Bar Chart
- Thermometer Chart
- Gauge Chart

I would definitely recommend this course to my colleagues, as there is so much application to the reality of project management in the workplace!
