"It helped me understand the entire banking process and how all the elements of the bank work together. It helped me understand the drivers of profitability and how to unpack the drivers of income streams. Truly enjoyed it. I learned how to manage the a bank in a playful way". Business Analyst - Absa

"It helped me understand the interrelationship between the different functions in the Bank and the way the decisions made therein impact the financial performance of the business. A better appreciation of the linkages. A better appreciation of being ready for shocks, making investments that support strategy and thinking long-term.". Business Analyst - Kenya
